

## SprintPay Flex

Introducing SprintPay Flex, our new financing solution enabling freight forwarders to get their cargo released now, but pay freight fees later.

This flexibility is especially important now as tariff fluctuations cause unpredictable shipping schedules and high cargo volumes that put a strain on financial resources.

### Benefits of SprintPay Flex include:

Release your cargo now, pay later in 14, 30, 45 or 60 days\*

Improve your cash flow - access to capital as needed

Make your payable time match your shipper receivables

Adapt quickly to unpredictable demand shifts

Avoid costly credit card processing fees

Have a reliable backup for emergency needs

#### How to get SprintPay Flex:

1. Make a request to your Account Representative or at [CargoSprint.com/Contact](https://CargoSprint.com/Contact)
2. Complete the application and get approved in as little as 2 days
3. Start using SprintPay Flex for your next SprintPay payment

\*Finance charges apply

#### How it works:

- Once your SprintPay Flex account is approved, a financing limit and payment terms will be set
- Use your account to pay freight charges or fees at any of the 5,000+ cargo facilities in our SprintPay network, including ocean carriers, marine terminals, co-loaders, and others
- Each transaction made on your account is subject to a finance charge and the SprintPay Flex terms
